

## My Time Passport

This page certifies that I have travelled to the following times in the past.

On the time line below mark on 5 important Historical events from Britain's past as well as the places you have travelled to in your History module.

**TASK:** Draw or insert suitable images for each of the 5 important events/people you have chosen. Take an extra page if you need to.

## My History passport stamps

When you travel to a country you often get a stamp in your passport which shows you have visited. These stamps often have a coat of arms for that country, with symbols that tell people something about that country.

Draw 3 time stamps below: one for 2008, one for your parents' childhoods and one for the time you chose to study.

Make sure you label your stamps, explaining the images in each coat of arms.

Comparing the times I have travelled to.

Think about the three time zones you have travelled to in course of the module.

Imagine that the TARDIS you have been travelling in is malfunctioning and you can only choose one of the destinations to travel back to. You need to tell the TARDIS where you would like to go and why. You must also tell the TARDIS why it must not take you to the other destinations.

Write down your instructions in two paragraphs. You can use the following writing frame to guide you.

Dear TARDIS,

The time I would most like to live in would be .....  
This is because although there are some negative points .....  
I think the best reasons to stay here would be .....

I would not like to live in ..... or .....  
This is because although there are some good points .....  
I think there are lots of bad points about living here.....

(try to compare with your favourite time zone)
