FAO Y11 Parents/Carers - Message from the PE Department

This term students will have the opportunity to revise instead of participating in their core PE lessons. Students will receive the option to either participate in PE or go to a separate classroom to complete revision for a subject of their choice. Please note that students are still expected to bring their PE kit for each lesson. We also ask that students come to school prepared with the equipment and revision resources in order to complete the revision they require; if students are not in possession of these, they will be required to partake in practical PE sessions.

Should students wish to finish the year completing revision only and have no need for their PE kit anymore or are not donating down to siblings, we kindly ask that students' old kit is donated back to the PE department in which they will be rewarded for each item, and allows us to provide kit back to the community who attend PCS.

We are also offering revision sessions both within core PE lessons as well as after school should students wish to attend these also. Thank you for your consideration and support with this, it is greatly appreciated.
