Career/Life Journey since leaving PCS:

I finished school and went on to college and studied Performing Arts and Media Studies. I excelled in both with top marks! From then I got myself a job in retail (Asda). I was there for 5 years with a supervisor promotion. I then left there and went to (M&S - upgraded).

I was there for 3 years also working my way up to supervisor. I then left there and I am now currently managing a live music venue/bar. I've been here for around 6/7 years. As well as managing the bar, I plan the events, book the acts etc, and have also found my alter ego - in the last year I have found myself djing and also doing drag!!
