

PEACEHAVEN COMMUNITY SCHOOL

Name: Sophie Delves

Attended PCS: 2010-2015

Career/Life Journey since leaving PCS:

Attended Sixth Form at Roedean (all girls school from Yr7-Yr13) after securing an academic scholarship from my GCSE results. After Sixth Form, I went into a Business Administration apprenticeship which meant relocating to London and working in a large corporate business when I was 18. I quickly realised I wanted to continue my education and was accepted at the University of Birmingham for the Psychology Bachelor's degree course.

I moved to Birmingham for 2 years and attended University which was a very challenging but rewarding experience studying the subject I was (and still am) passionate about. During COVID, I completed my 3rd/final year in Brighton which was a difficult time of fully online learning. I graduated with a 2:1 degree in 2021. I found a good job in Education Recruitment right after University, and now I am a Senior Recruiter at a Technology Recruitment Consultancy in Hove. I use my Psychology degree everyday speaking to candidates and clients!

Employability Skills: Communication, psychology, team-work, work-ethic, English, maths

Future Career Aspirations:

I want to be a successful businesswoman - I just don't know in what sector yet! I also have always loved music and performing so I would love to pursue this as well.

Career Advice:

Always try your best and never give up.
