

Victory in Europe

Victory in Europe
A day we won't forget
Even though for some
The war wasn't over yet

The hum of planes is gone now
The battlefields are clear
The sunshine has come out at last
And washed away our fear

We can celebrate now
Throw parties in the street
And every year remember
Our brave british fleet

When the announcement came
You should have heard the cheers
The entire nation knew at once
No more wars for years
